About

Third-year Computer Science and Engineering student with a strong interest in Data Analytics and modern technologies. Skilled in Python, SQL, and data visualization, with experience in React Native and AI-powered development. Seeking opportunities to apply skills in real-world projects and gain practical experience.

Education :

Bachelor of Technology in Computer Science and Engineering
Seacom Skills University – 2023 - Present

Higher Secondary (Science)

Bolpur NNB High School (WBCHSE) – 2023

Secondary (Madhyamik)

Nawada Palundi High Madrasah (WBBME) – 2021

TECHNICAL SKILLS :

- **Programming:** JavaScript, Python (Learning)
- **Frontend:** React.js, HTML, CSS
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, SQL (Learning)
- **Data Analytics:** Data Cleaning, Data Visualization ,Pandas, NumPy, Matplotlib (Learning)
- **Tools:** Git, GitHub, VS Code, Excel

Projects :

Full Stack Web Application

- Developed a complete web application using MongoDB, Express, React, and Node.js
- Implemented authentication and REST API integration
- Built responsive UI for better user experience

Data Analysis Practice (Learning Projects)

- Working on data cleaning and visualization using Python libraries
- Exploring datasets to extract insights and trends
- Learning SQL queries for structured data analysis

Experience :

Freelance Developer

- Delivered real-world projects in app development and AI-powered frontend solutions
- Built user-focused applications with efficient performance and clean design
- Leveraged AI tools to enhance productivity and streamline workflows

Languages :

Fluent in **English, Hindi, and Bengali** – can read, write, and speak all three languages confidently.
